1 Important warnings

The pictogram shows a situation of immediate danger or a dangerous situation that might cause injuries or death.

The pictogram shows that it is necessary to adopt suitable behaviour in order to avoid jeopardising staff safety and cause damages to the equipment.

The pictogram shows particularly important technical information that should be taken into consideration by the people installing or using the equipment.

Read this manual carefully before installation and keep it for any further future consultation by the various operators. Do not remove, tear out or rewrite any part of this manual.

Failure to follow these instructions may cause damage and injuries, even fatal, voids the warranty and relieves the Manufacturer of any liability.

All installation, assembly, electrical connections to the mains and ordinary/extraordinary maintenance must be performed **only by technicians complying with the legal requirements**, after turning off the unit and using personal protective equipment (i.e. gloves, protective goggles, etc.), in compliance with the regulations in force in the country the equipment is to be used in and the laws on safety in the workplace.

Installation, use or maintenance other than those specified in the manual may cause damage, injury or death, invalidate the warranty and relieve the Manufacturer of all liability.

Use protective clothing and suitable equipment while handling or installing the equipment, in order to prevent accidents and safeguard your own and other people's safety. Individuals not assigned to installation or maintenance are NOT allowed to stand or pass through the work area while the unit is assembled.

Before carrying out any installation, disconnect the equipment from the power supply and wait at least 120 seconds before carrying out any operation.

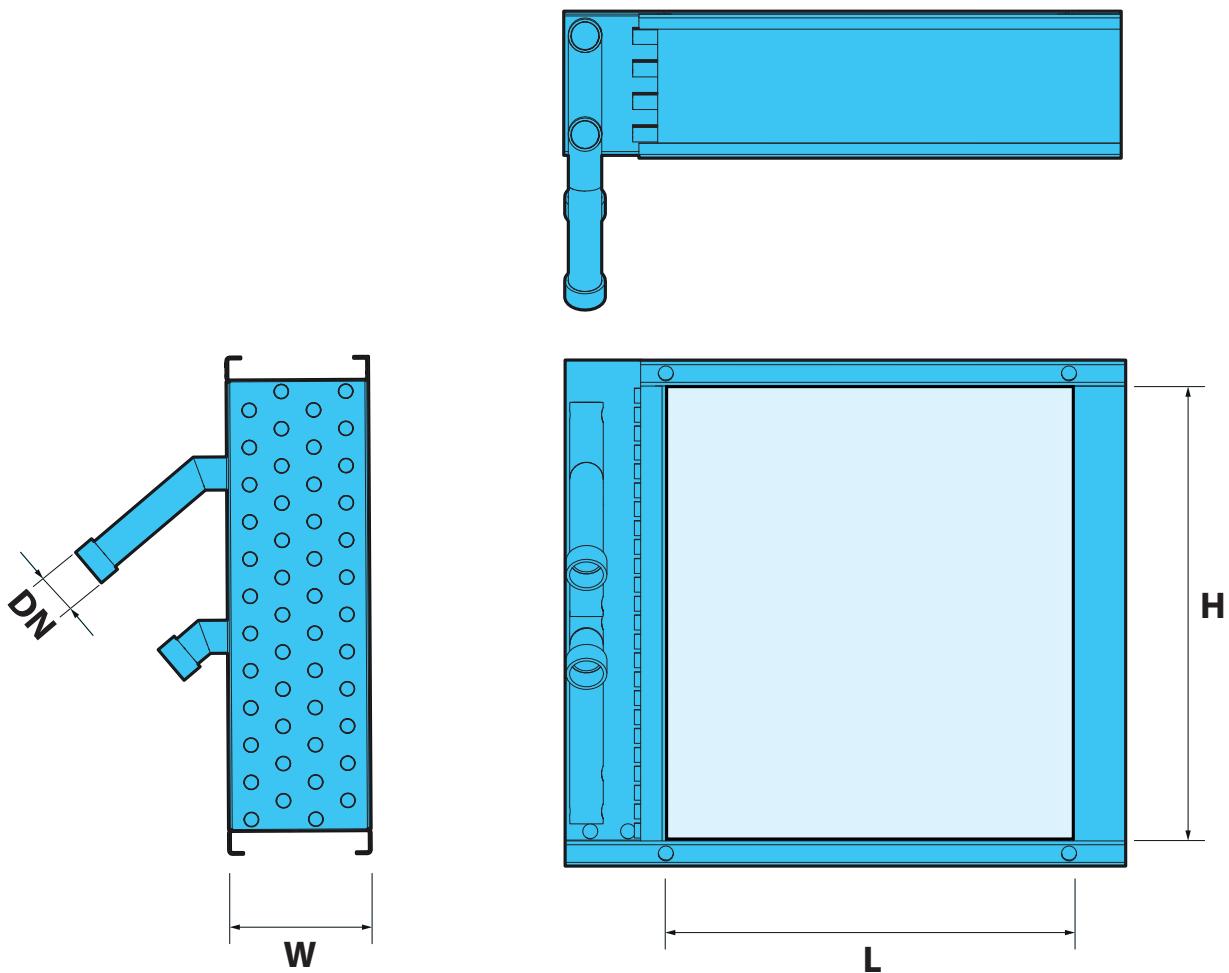

It is the responsibility of the user/installer to check the static and dynamic stability relative to the installation and to arrange environments so that **people who are not competent or authorised DO NOT have access to the unit or to its controls**.

2 Technical data

Water coils | Cooling

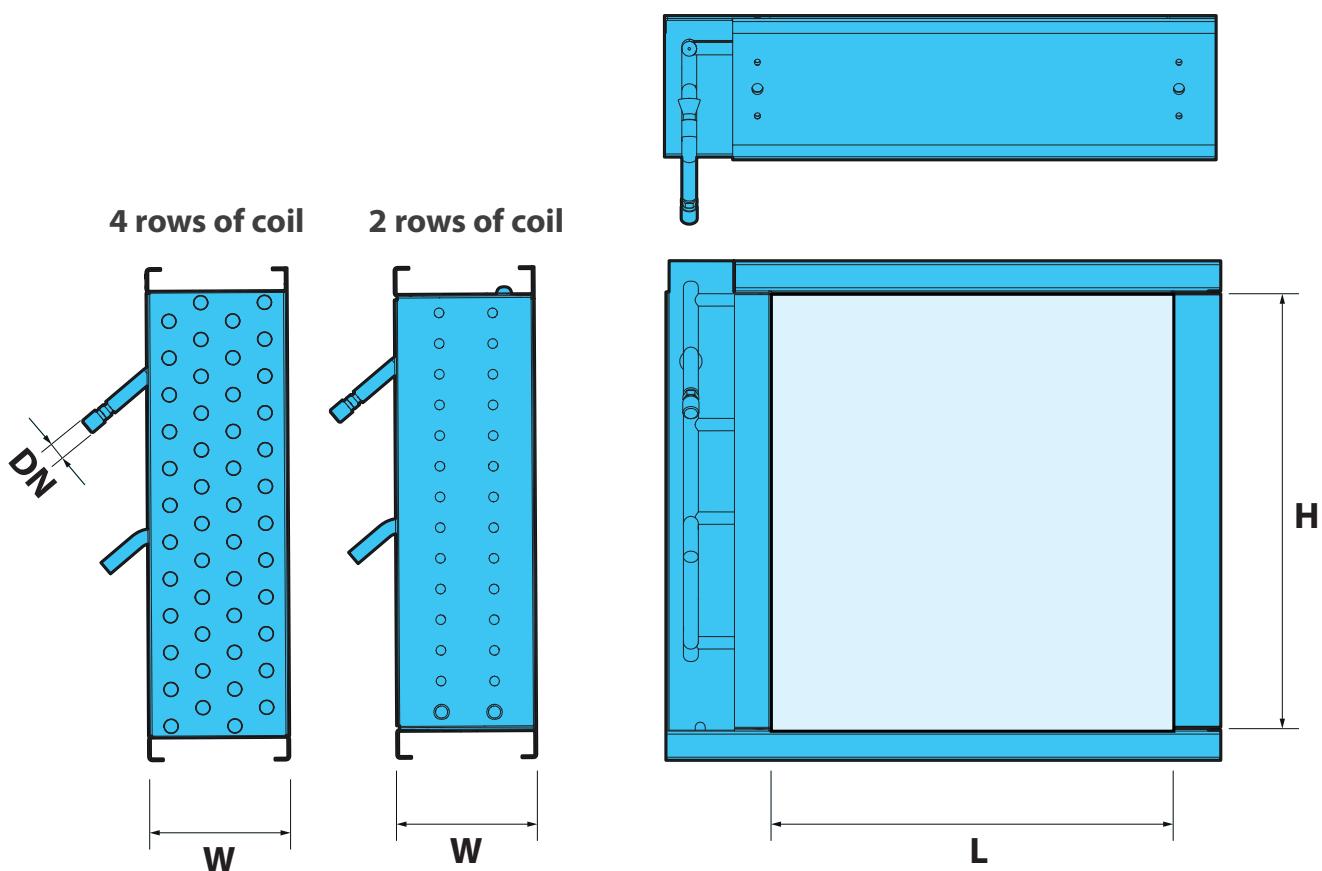

Size	Material name	Total Capacity [kW]	H [mm]	L [mm]	W [mm]	DN [inch]	WEIGHT [kg]

**remove the protective film
from the back of the gasket**

2 Preparation of the gasket

Right Handling

VERSION UNIT

ATBR****

**Pay close attention to the correct
positioning of the gasket**

**gasket applied
inside of the
unit**

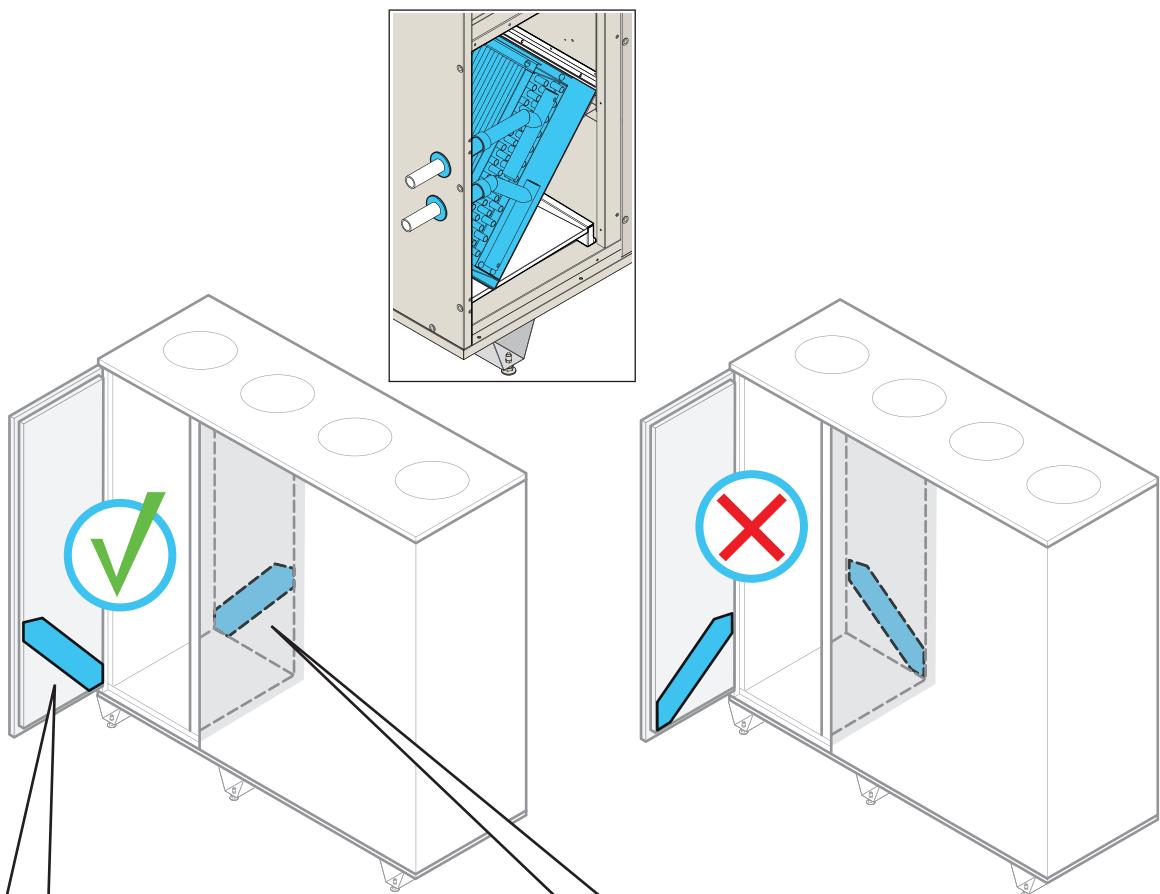

gasket applied to the door

3 Correct application of the gasket

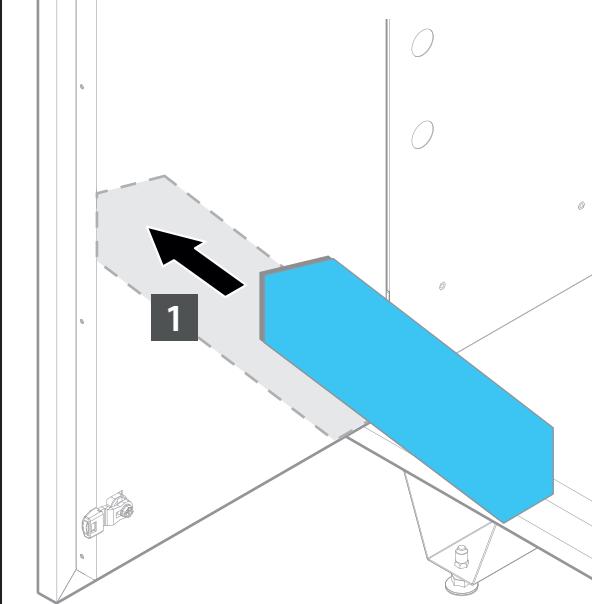

Left handling

VERSION UNIT

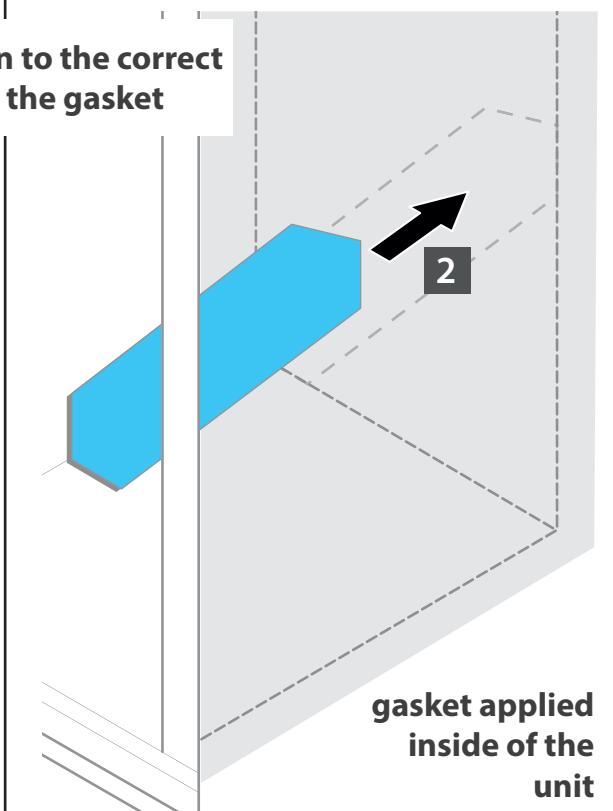

ATBL****

Pay close attention to the correct positioning of the gasket

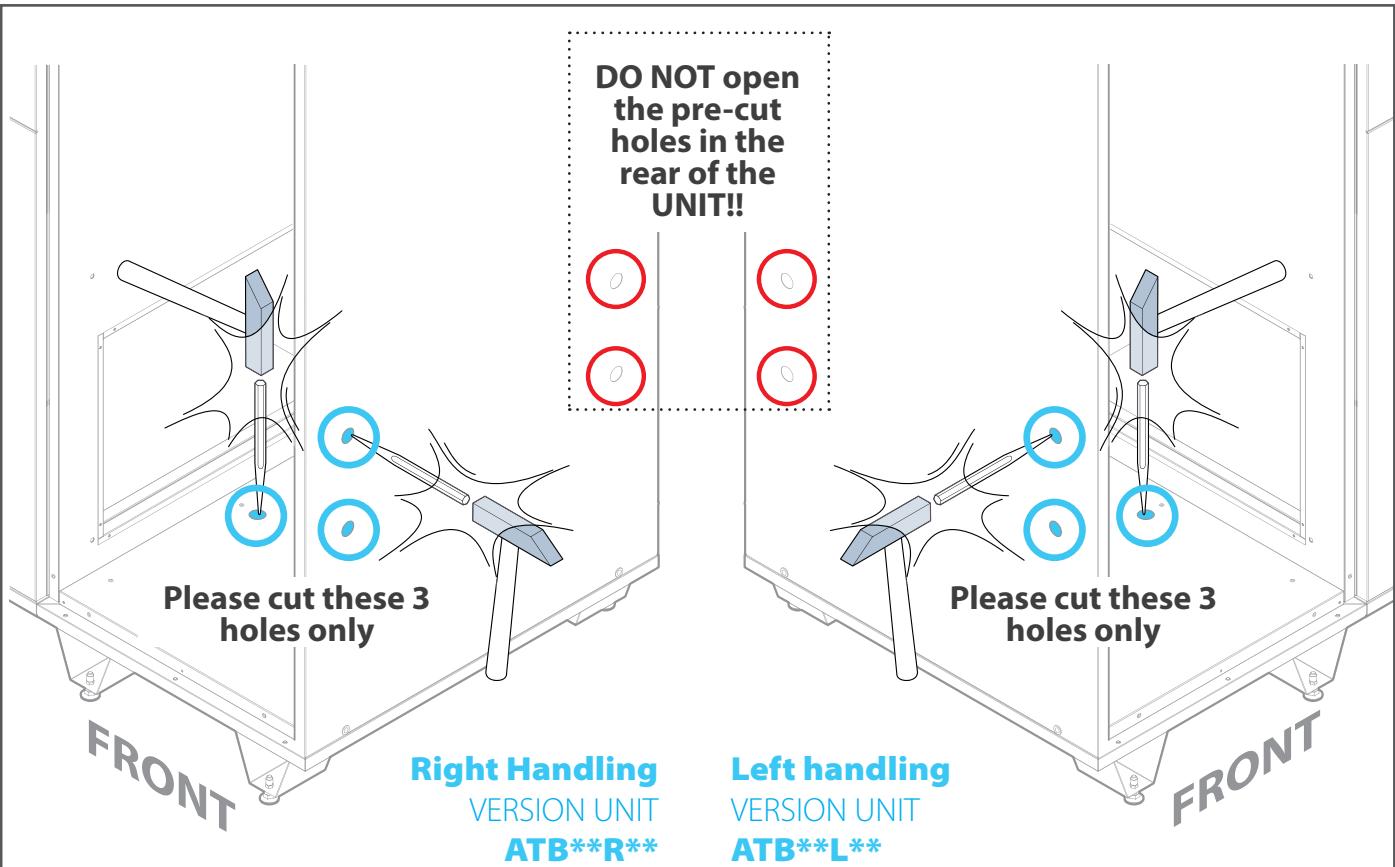

gasket applied to the door

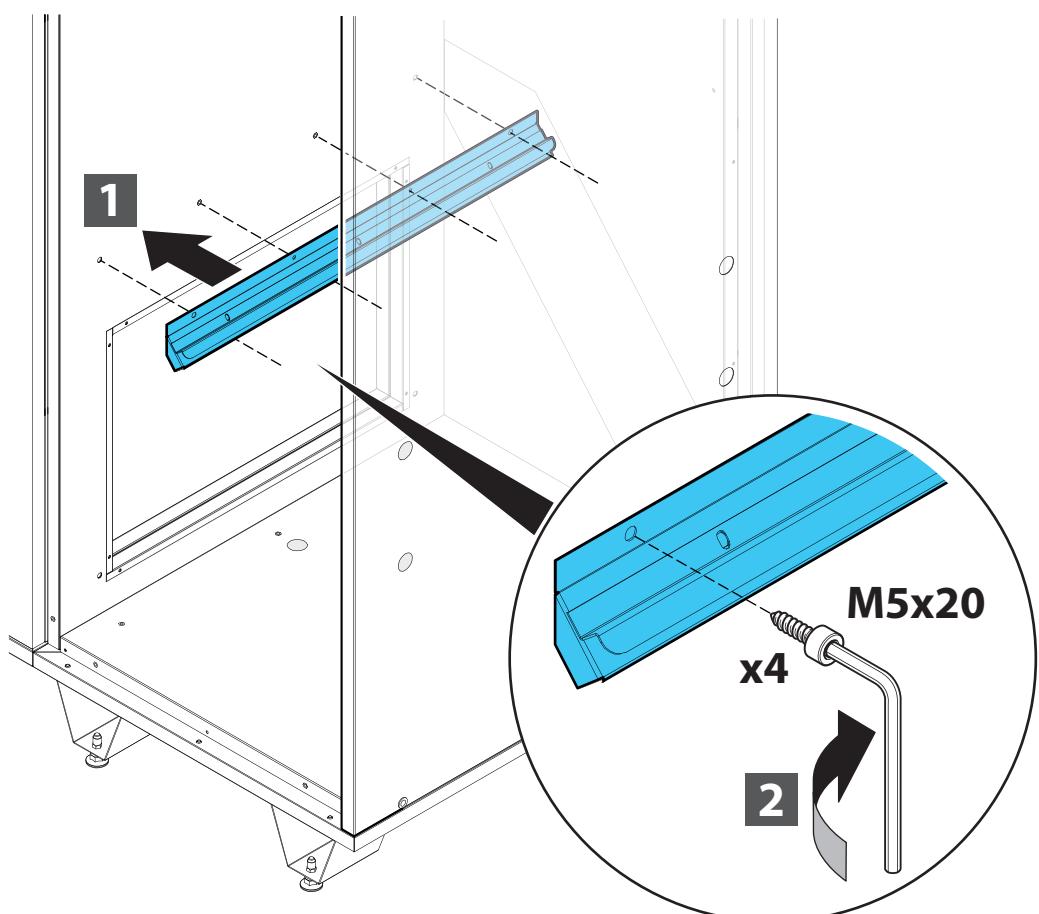

**gasket applied
inside of the
unit**

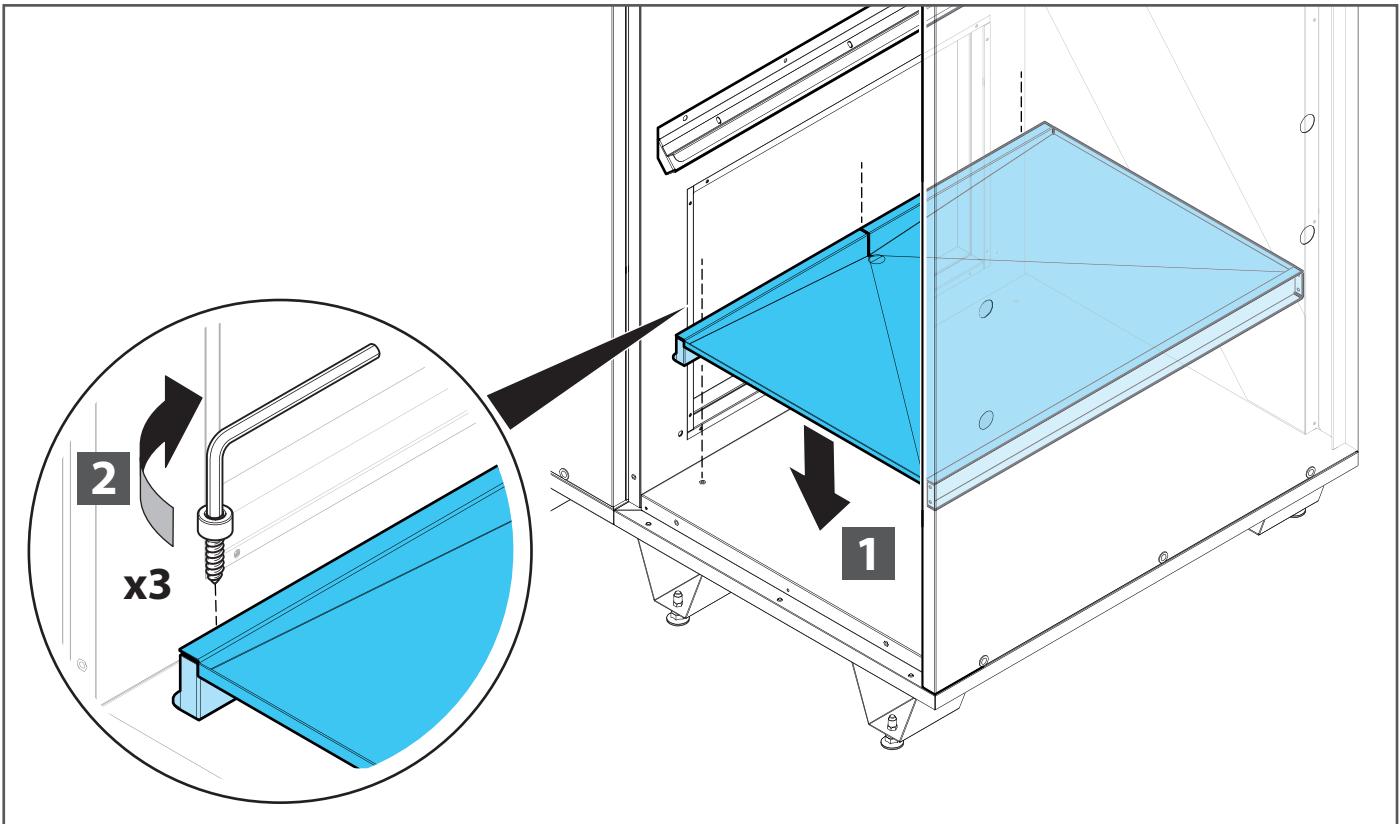

4 Correct application of the gasket

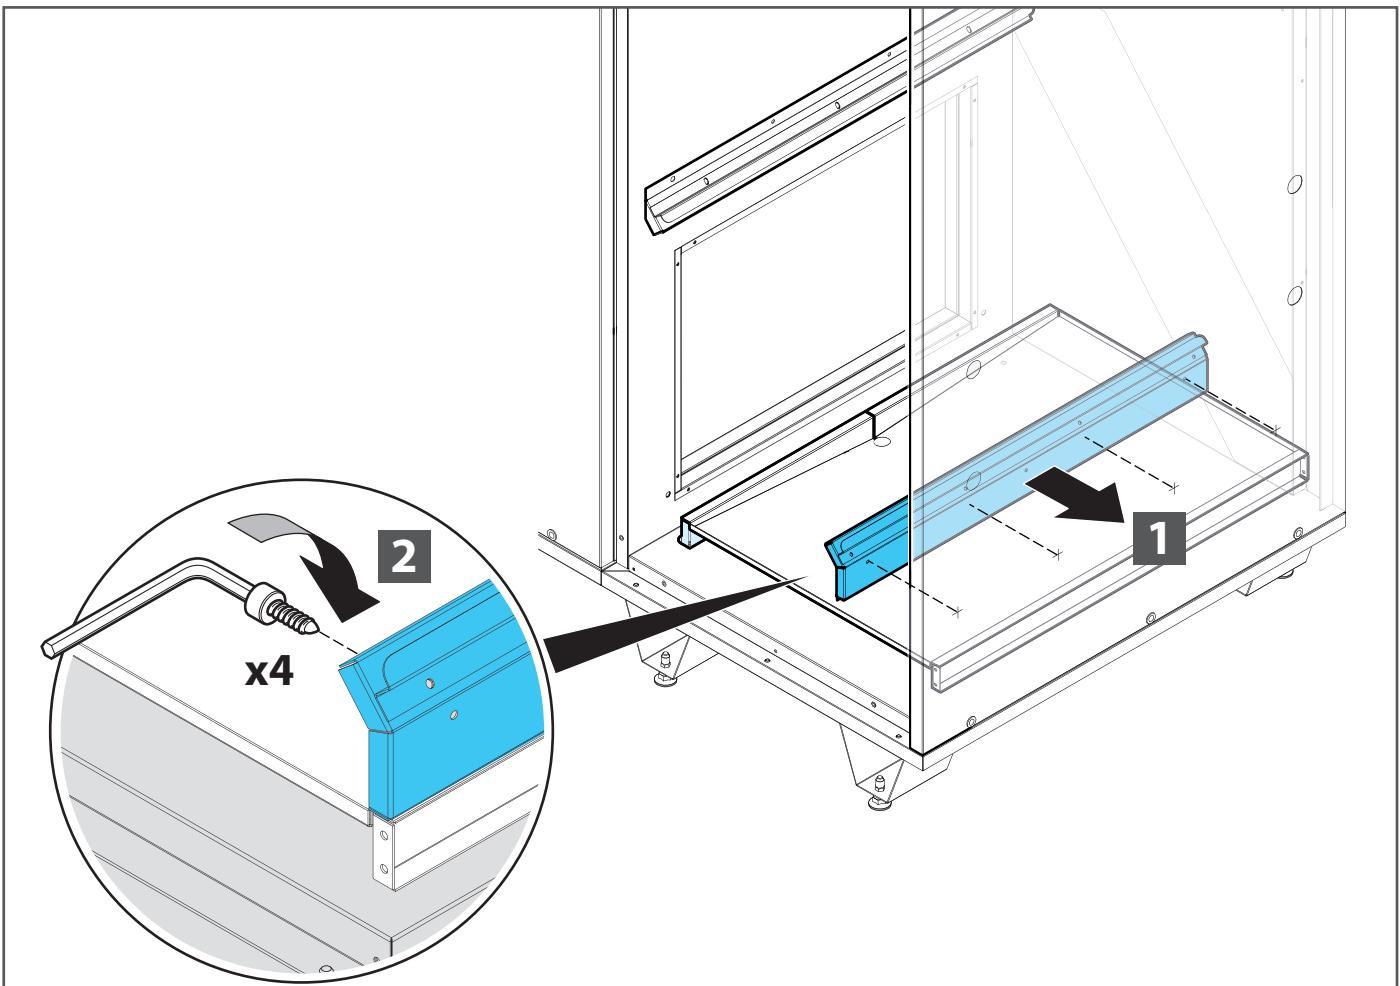

5 Pre-cut holes opening

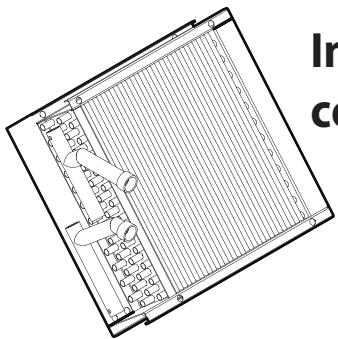

6 Upper metal sheet installation

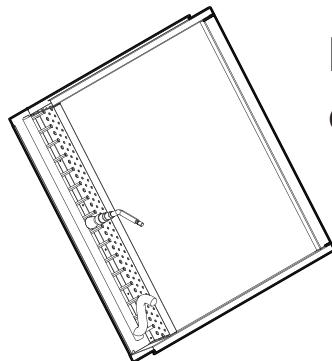

7 Drain pan installation

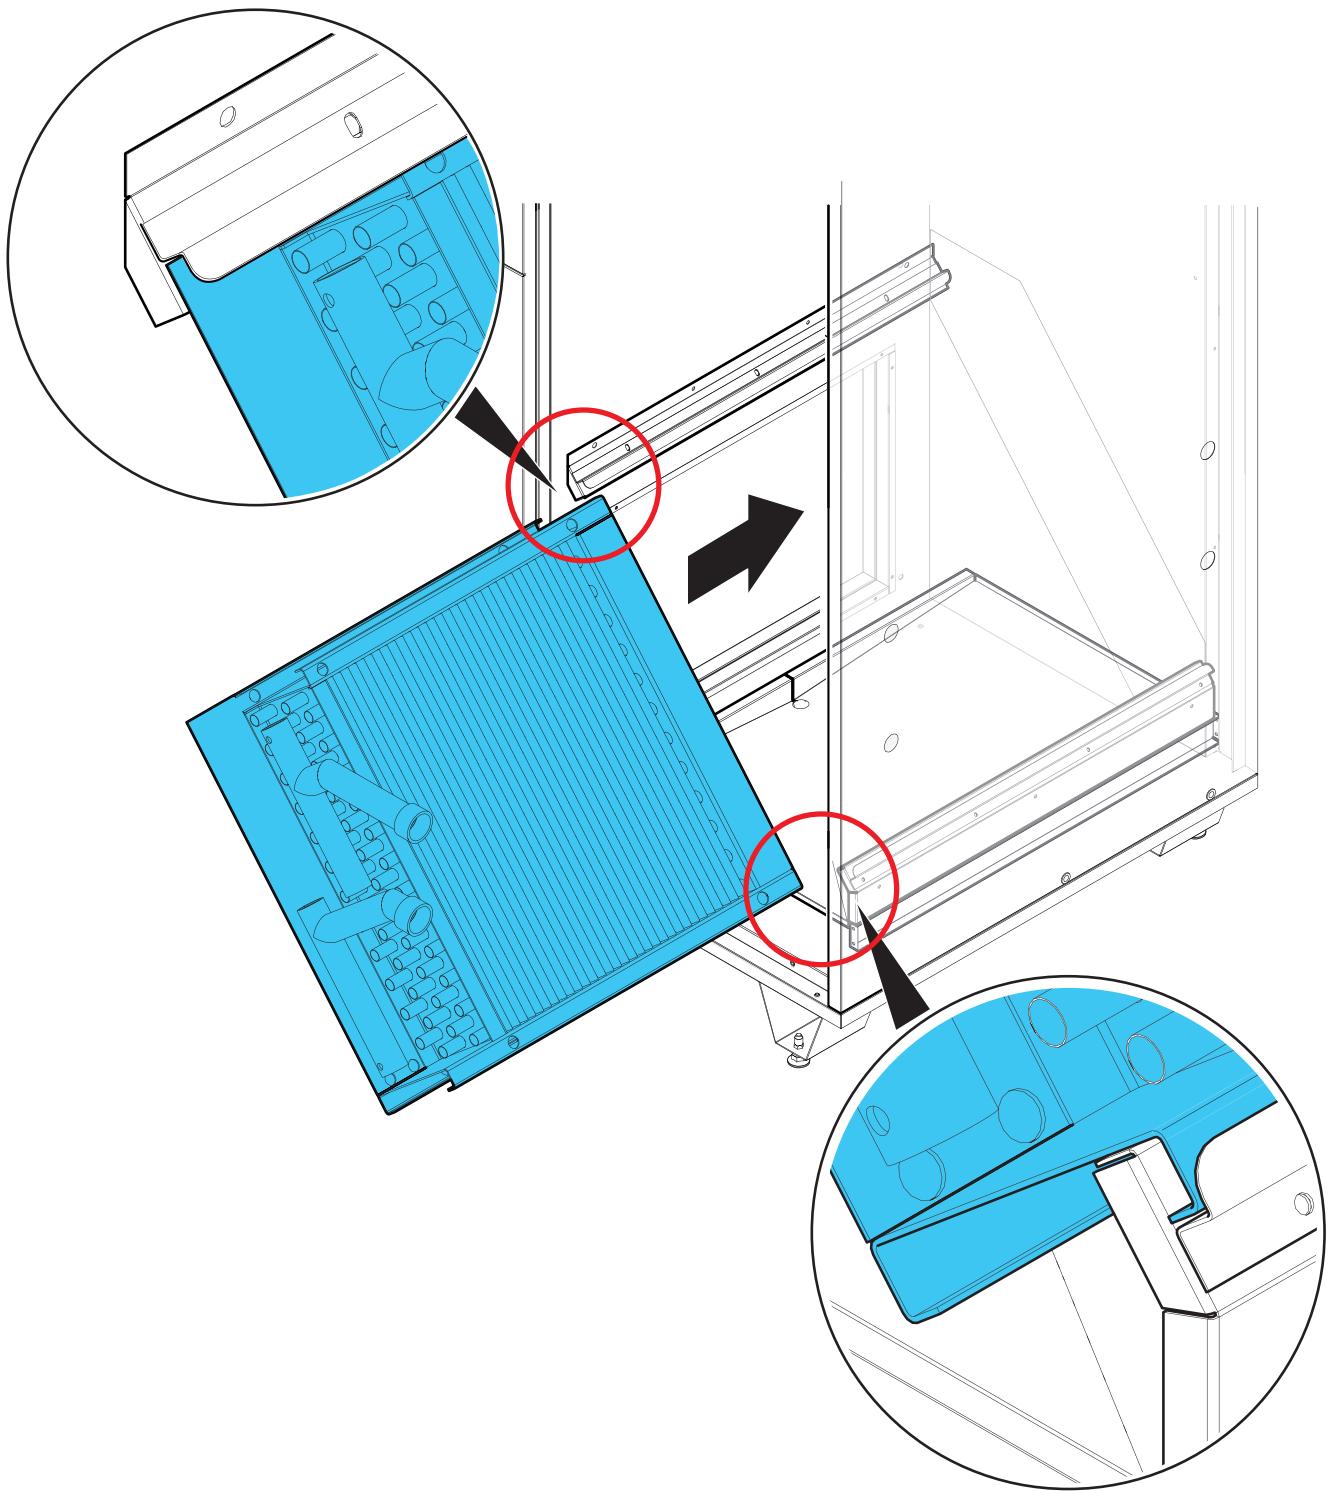

8 Bottom metal sheet installation

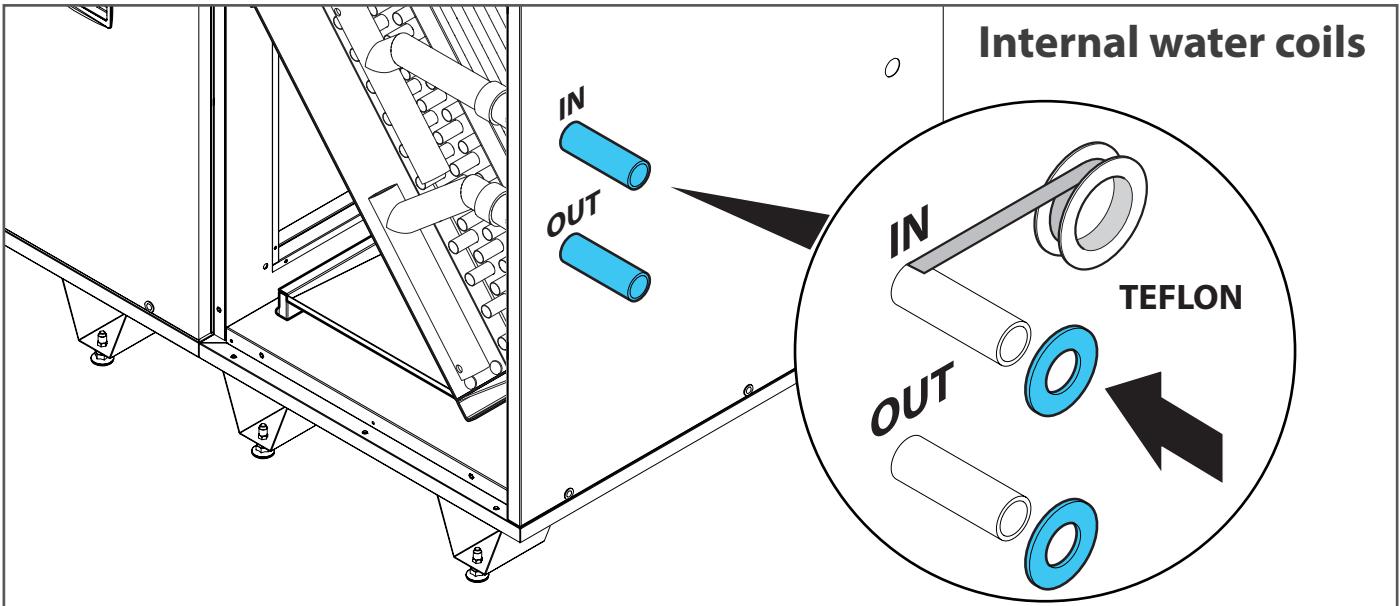

Internal water coils

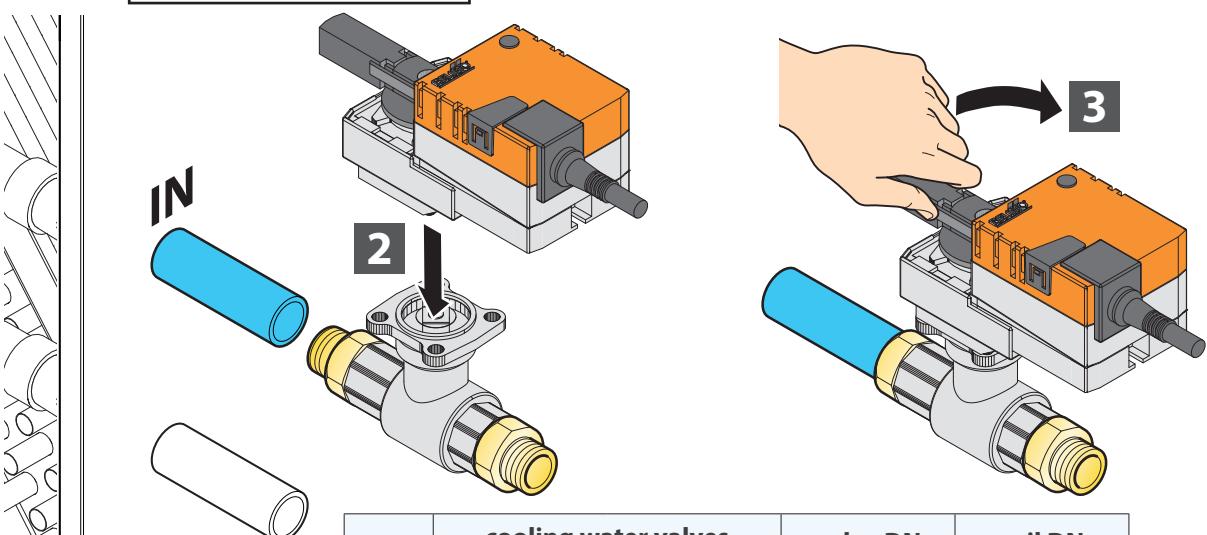

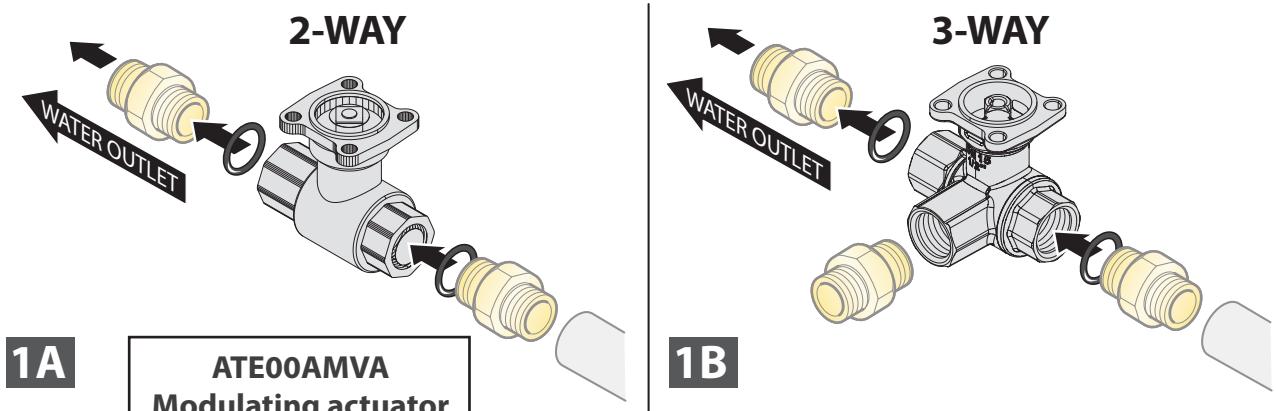

Internal DX coils

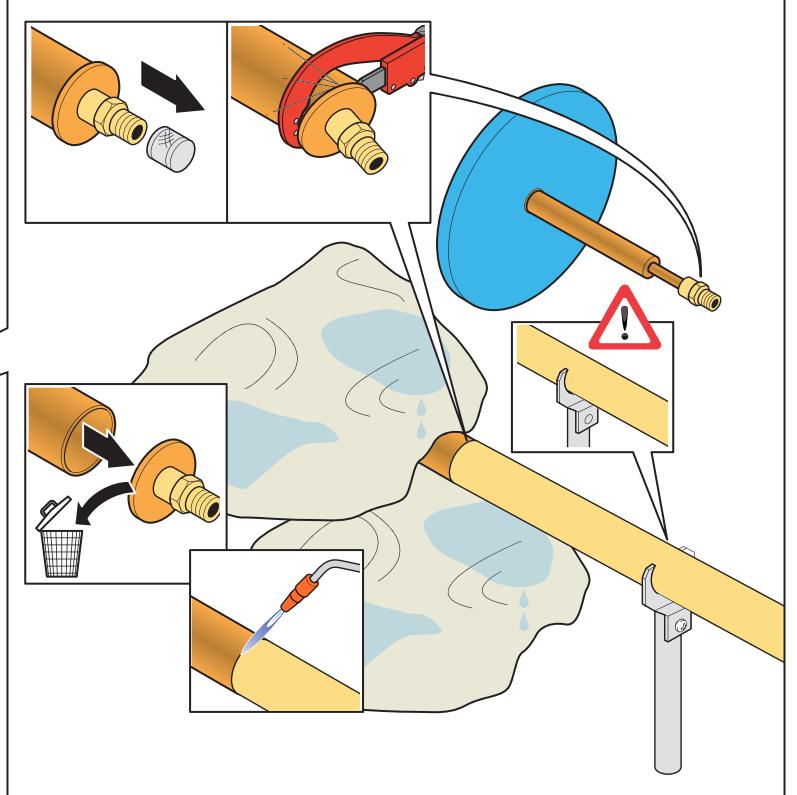

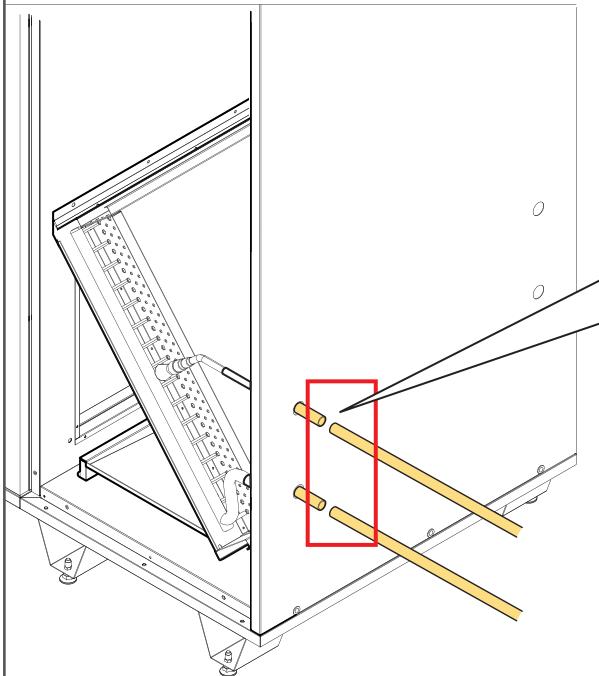

10 Extension pipes installation

Size	cooling water valves		valve DN [inch]	coil DN [inch]
	2 way	3 way		
03	ATV03CW2A	ATV03CW3A	1/2	3/4
04	ATV04CW2A	ATV04CW3A	1/2	3/4
05	ATV05CW2A	ATV05CW3A	3/4	1
06	ATV06CW2A	ATV06CW3A	3/4	1 1/4
07	ATV07CW2A	ATV07CW3A	1	1 1/4

11 Valve and actuator installation (opt.)

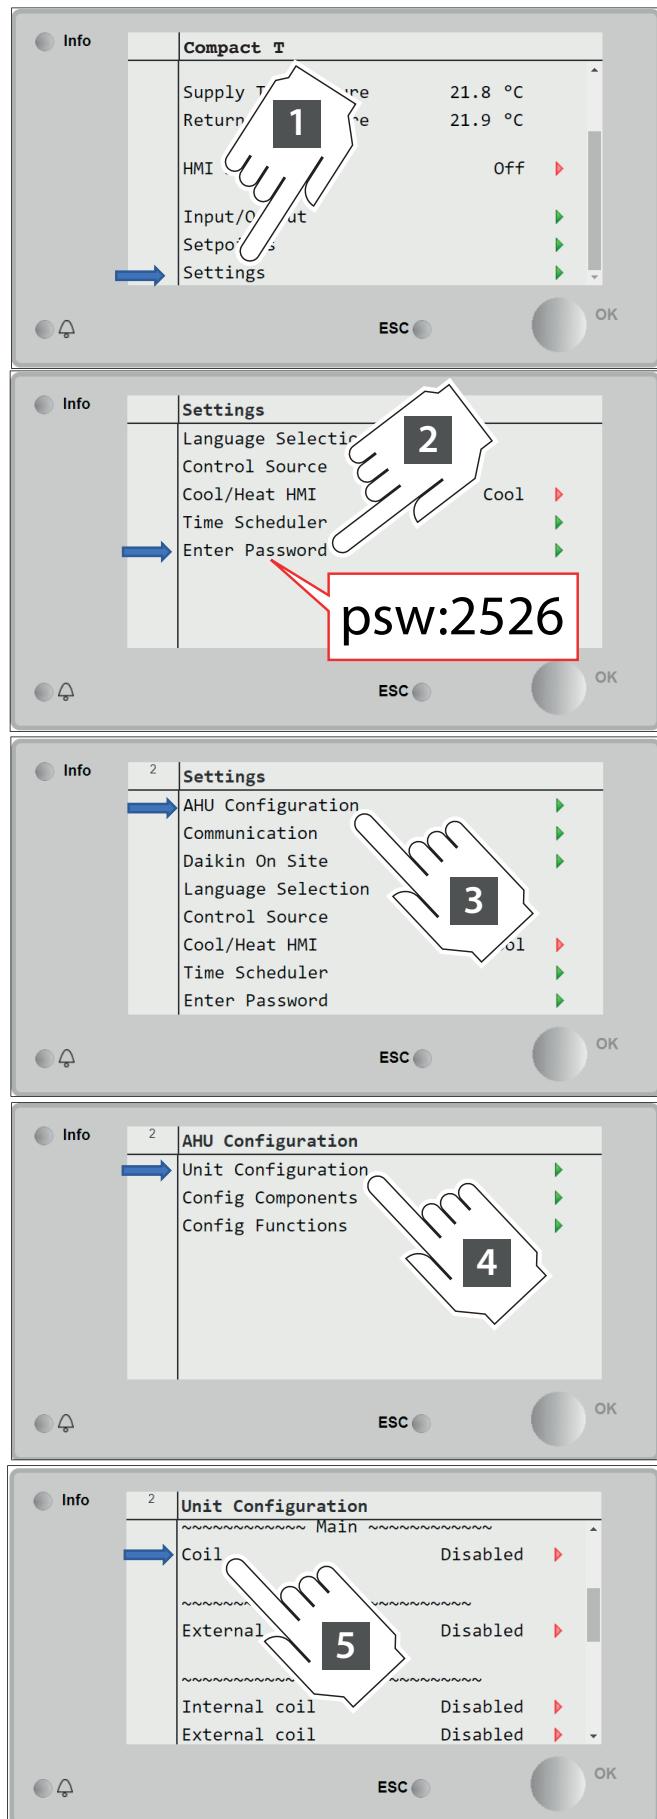

Internal DX coils

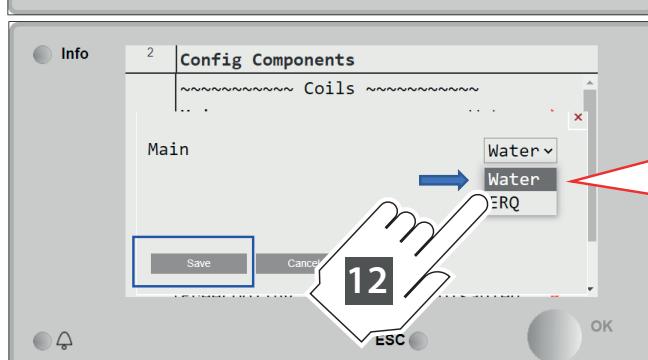

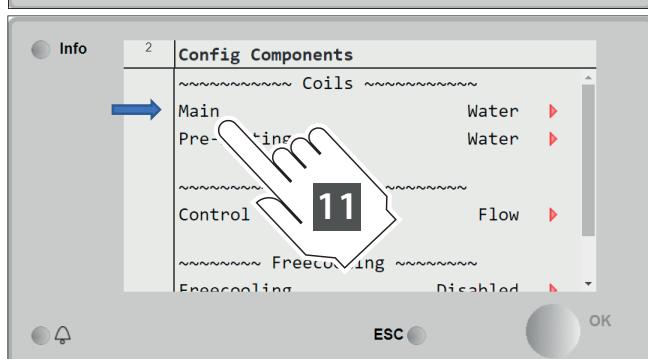

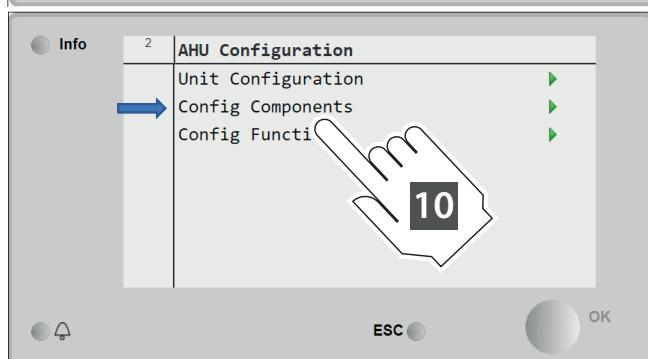

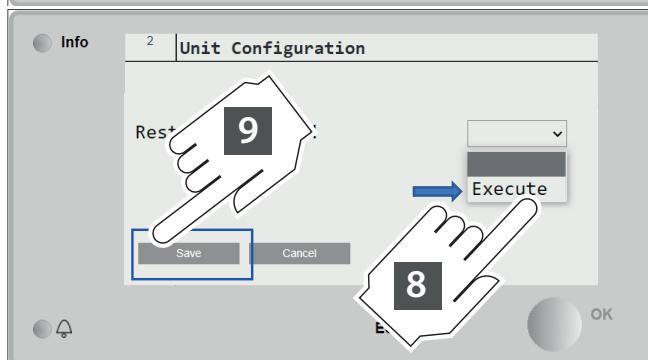

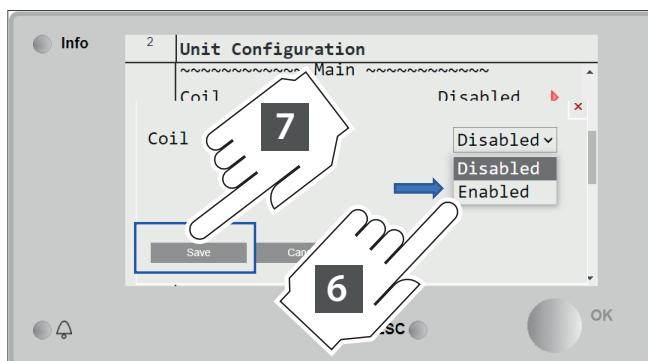

12 Pipes welding procedure

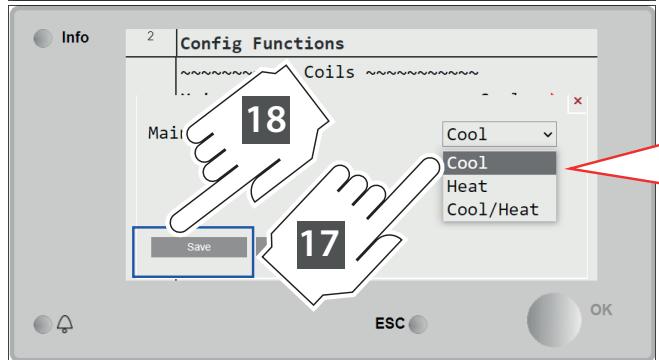

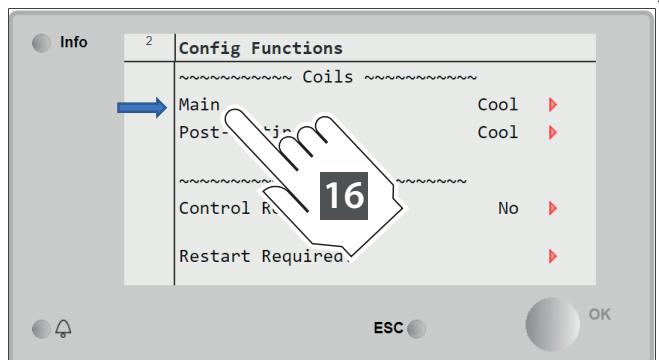

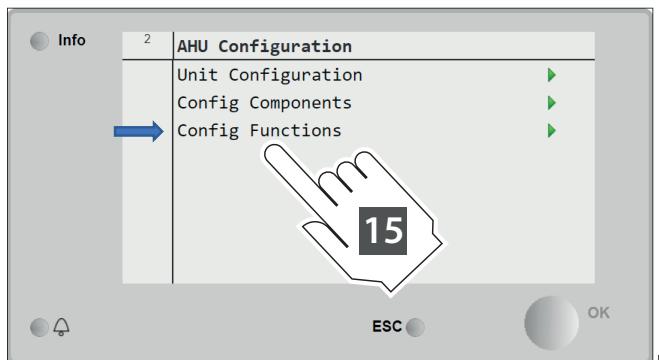

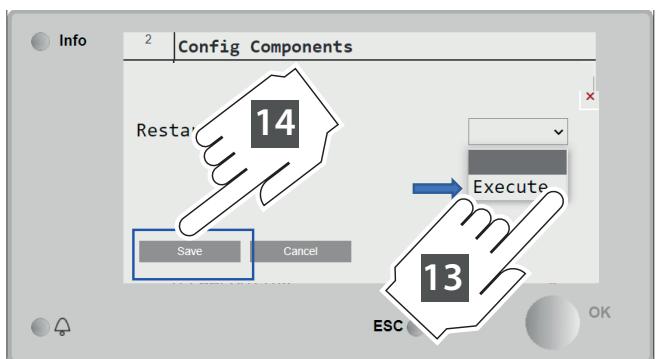

Software setup

Commissioning module ALC00895A is required

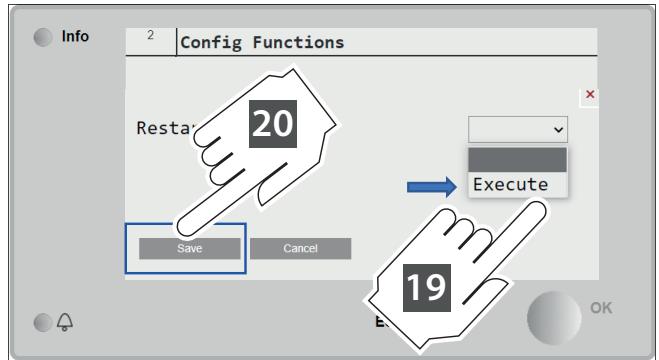

**WATER -> Cooling coil water
ERQ -> DX Cooling coil**

Select whether the coil is will work as:

- cooling
- heating
- mixing (cooling/heating)
